DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group II (Claims 5-12, 20-31 and 32-42) in the reply filed on April 20, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. This application is in condition for allowance except for the presence of claims 1-4 (Group I) and 13-19 (Group III) to inventions non-elected without traverse. Accordingly, claims 1-4 and 13-19 have been cancelled.

Allowable Subject Matter

3. Claims 5-12, 20-31 and 32-42 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art does not teach a method of qualifying the accuracy of a machining machine that includes the steps of (1) mounting and utilizing a contact measuring probe in a spindle where a machine tool would ordinarily be mounted, (2) checking the position accuracy of the machine, (3) checking the position accuracy of a holding member and (4) proceeding to machining operations only upon qualification of predetermined tolerances.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Kirkham (US 4,118,871), McMurtry (US 4,636,960), Kanemoto, et al. (US 4,583,159), McMurtry (US 4,542,467), Yamakage (US 4,451,185) and Cornwell (US 4,901,218) each disclose a machining system that utilizes a measuring probe in a spindle of the machining system.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney E Fuller whose telephone number is 571-272-2118. The examiner can normally be reached on 8:00am - 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Lefkowitz can be reached on 571-272-2180. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
